**Scame is a timeless sailing yacht constructed at the Sangermani Shipyards, one of the world's most famous builders of elegant boats. She is a 72 foot wooden cutter designed in 1971 and our only one-master. With three double cabins and six berths, she is astonishingly spacious and the perfect yacht for families or groups of up to six people.**

**Scame is a truly graceful sailer and has been cruising around the globe continuously for the past 35 years before joining our fleet in the Mergui Archipelago. She is fast and comfortable and her friendly captain is probably the most experienced yachtsman on the seven seas. There is a relaxed family atmosphere aboard Scame and her skilled crew of four is more than happy to share their love and knowledge of the sea.**
